

DOUGH
DIVIDERS

B 300 GV Dough Divider

The B 300 GV is a high speed dough divider. This single pocket machine with dough friendly portioning mechanism is developed especially to be used for the production of baguettes and petit pains.

WP Haton the leading brand in dough processing since 1949

WP Haton produces the most advanced and best bread make-up machines in the world contributing to high weight accuracy, excellent structure and most friendly and careful handling of the dough without compromising on high speed, consistency and constant quality on every piece of the dough piece produced.

- Automated dough processing systems for virtually all types of bread
- Tailormade line concepts in dough processing equipment
- Unique system of modularization
- BreadLab: the experience center where bakers from all over the world can test our equipment with their own ingredients

B 300 GV Dough Divider

Highlights

- Specifically developed for baguettes dough
- Dividing of 'green' dough as well pre-fermented dough
- Suitable for high-capacity lines
- Fits in every common line concept
- High weight accuracy
- Hinged hopper for easy cleaning
- Main piston synthetic
- Measuring pistons synthetic
- Nickel chromium alloy dividing unit

B 300 GV

The B 300 GV is a high-speed dough divider with a high weight accuracy. This single pocket machine with dough friendly portioning mechanism is developed especially to be used for the production of baguettes and petit pains. The design of the B 300 GV is robust, easy to use and maintain, with a capacity of up to 3,000 pieces per hour.

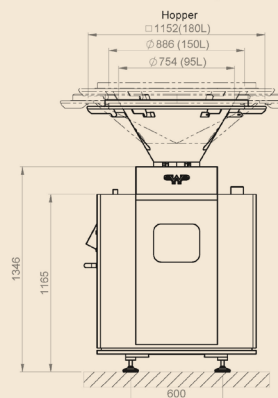

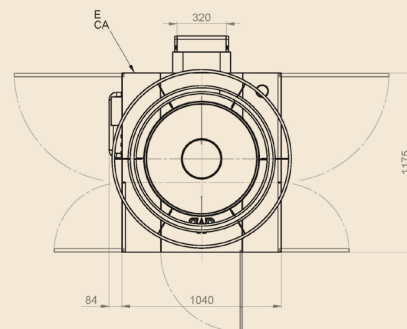

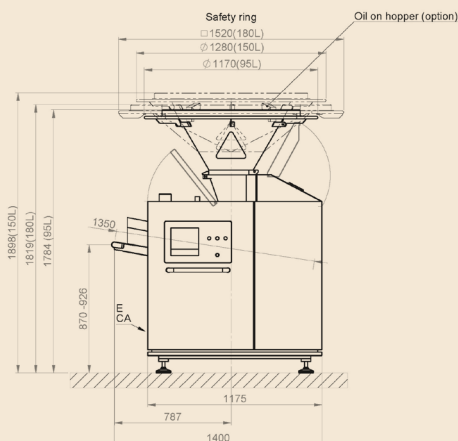

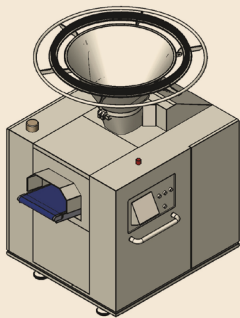

Specifications

- Single pocket machine
- Dividing unit with automatic oiling on unit, discharge conveyor, discharge flap and measuring piston, 12 fixed dosing valves
- Discharge conveyor straight 1350 mm, with motor reductor and frequency inverter
- Pneumatic discharge flap with synthetic scraper
- Hopper stainless steel 150 litres
- Hopper and hopper base Teflon coated
- PLC with touch panel
- Oil shortage detection
- Frequency inverter on main drive for adjustable speed
- Servo weight adjustment with digital read-out
